

KR 224 Stand Alone Shuttle Feeder

The KR 224 Shuttle feeder is a stand alone feed system capable of handling a wide variety of media from single sheets and envelopes to books and magazines. Product size range is 3"wide by 5" long up to 17"wide by 17" long although optional configurations expanding the range are available.

Like all shuttle feeders, the KR 224 runs continuous because its hopper is loaded from the top and feeds from the bottom. Equipped with a DC variable speed motor, vacuum pump, semi-automatic lubrication system and roller cabinet, the KR 224 is equipped to work with most inline addressing systems.

Specifications:

Electrical Power Requirement:	220VAC, 60 Hz, 15 Amp	
Media Size:	Minimum:	3.0" x 5.0"
	Maximum:	17.0" x 17.0"
	Single Sheet:	0.0007" Thick
Dimension:	Length: 34.0", Width: 26.0", Height: 33.5"
