Superior Productivity From A Desktop System

Secap™ 30KNFO

Desktop Inkjet Address & Envelope Imager with High Capacity Feeder

High Speed, High Quality Printing and Imaging

Designed for high speed and performance, the Secap™ 30KNFO provides superior print quality with a high production feeder at an affordable price. Simple to set up and run with standard parallel interface and compatible with most software applications.

- Innovative split head configuration allows printing of address, barcode, message line, return address, logo, and indicia in one pass
- Handles a variety of media up to 1/2" thick
- 600 dpi - highest quality and speeds available - up to 30,000 pieces/hour in super draft
- Start/Stop integration between feeder and printer
- Prints delivery point barcode for postal discounts
- High capacity/industrial feeder for high volume runs and greater productivity

# Professional Addressing From a High Speed Desktop Printer

Designed for professional imaging, the Secap™ 30KNFO desktop, mail production system delivers high quality, high speed inkjet printing with graphics and spot color capability in a full 3" of print. The 30KNFO prints logo, address, indicia, return address, message line and graphics all in one pass. With little down time and low operating costs, the 30KNFO provides superior performance and productivity to your operation.

High Production Results From a Compact, Desktop System!

Handles media up to 14" wide x 15.5" long, 9" x 12" envelopes

The Model FR170 Friction Feeder (shown) and riser stand provides fast and accurate feeding for high volume runs.

Clear plexiglass lets you monitor and see your job in progress

Simple operator controls and LCD display for ease of operation

True Windows "plug and play", interface connects to your existing computer and database

Adjustable dial to accommodate media thicknesses up to 1/2"

Can be configured with an optional conveyor and dryer for jobs requiring high speed finishing and increased productivity

▲ The Secap™ 30KNFO prints all of the above in one pass! (Envelope is sample only and does not indicate exact proportion of items being printed.)

Optional CS72N Conveyor: Stand alone conveyor provides additional drying time and precise media handling for high speed jobs.

For increased drying time and convenient stacking of materials without sacrificing speed, the Secap™ 30KNFO is offered with an optional TC48 Conveyor.
