KolorJet
C500

## Introducing the KolorJet C500... Kirk-Rudy's latest innovation in highspeed color printing.

Increase promotional effectiveness and response rates by adding color images, graphics, and variable data to envelopes, transactional documents, and cut sheet pages.

- See high-quality color output that is delivered quickly

- Auto-servicing printheads from HP optimize color quality and enable consistent, reliable operation

- No click charges, very low maintenance costs

- Achieve quality color and save time with HP inks and two auto-switching 775-ml ink containers for each color

The **KolorJet C500** printer offers excellent color print quality at high speeds. Increase promotional effectiveness and response rates with high-speed, high-quality variable color added to envelopes and web-printed pages. Produce color images, graphics, and variable data 600 dpi at 500 fpm with four 4.25" printheads.

Offering a low total cost of ownership, the **KolorJet C500** Print Module is an affordable option for adding process color, especially versus standalone equipment. Plus you save time and money with automatic maintenance and low processing costs.
