SI 1000

SI 1000
Desktop Folder Inserter

Automatically Fold, Insert And Seal Your Outgoing Mail

Today, more than ever, it is important to work smarter to stay ahead. If you are currently hand folding and stuffing envelopes, the SI 1000 desktop folder inserter is the solution. Make a difference in your office. Prepare your outgoing mail fast, efficiently and hassle-free.

Are These Common Concerns In Your Office?

- **Wasting valuable time hand folding and stuffing envelopes?**

- **Frustrated by the tedious task of trying to get mail out on time?**

- **Do you want your outgoing mail to look more professional?**

- **Would you like to do more direct mail and promotional mailings?**

- **Have you wondered how to improve the security of your mail?**

- **Increase the frequency of correspondence with your customers?**

The Smart, Affordable Solution...
The SI 1000, Automatic, Desktop Folder Inserter.

Say goodbye to hand folding, stuffing and sealing envelopes with the Model SI 1000, Automatic, Desktop Folder Inserter. Rid yourself of "wasted time." Get your routine mailing tasks done quicker, automatically!

The SI 1000 makes it quite simple — just load your materials, press the button and go! Watch your documents get folded and inserted "hands-free!"

This routine and tedious task that used to take forever can now be accomplished quickly and efficiently, so your time can be spent more productively. Never miss a deadline again!

The SI 1000 has more advantages than you ever imagined. Your mail will look professional without expensive equipment and resources. Now you can mail more often and reap the benefits of retaining hard-earned customers. You can even speed cash flow and improve the response to direct marketing campaigns. Plus, by preparing and sealing your mail in-house, you help ensure its security.

Communicating with mail is a time-tested and efficient method for delivering your message. It makes sense to use the SI 1000 to improve the efficiency of your mail preparation, while making it professional-looking and secure.

The SI 1000 handles a wide range of materials.
